

“Club Rotax”

The way it should be

Club Rotax - A club designed for a special breed of “Spec Racers”

Rotax is a subculture of karting - A unique system where driver skill and chassis tuning become the premier elements of performance.

OK. I’ve bought my engine and I’m ready to race, but I need to know the benefits of being a Club Rotax member.

Club Rotax benefits include:

- A communication link between Rotax owners and our US Rotax Department. This is important for having the latest information from around the world and understanding what it means to you.
- You will receive the official Rotax rules manual for both race rules as well as tech rules
- You will be part of the National Points system that ranks every Rotax Club member who competes in an official USRMC Challenge Series.
- Every Club Rotax Member will have the opportunity to purchase Rotax clothing and accessories at special pricing in the online Rotax Store.
- Every Club Rotax Member has the opportunity to qualify for a spot on the grid at the annual US Rotax Grand National.
- All stories and articles sent in by Rotax Club Members will be submitted to National Kart News and Go Racing for publication in the Rotaxian section of the magazines.

There is a spirit and enthusiasm among Rotaxians that you can’t find anywhere else in karting. By being a member of Club Rotax you will find stories of sons, dads and grandparents that race in the same Rotax Challenge, twin sisters challenging twin brothers, GI’s coming home from the middle east, and the 72 year old husband and wife team where the wife keeps out-pacing her husband. Rotax is about people and how we all matter. It’s about the racing that brings us together to compete and share, and the camaraderie that brings lifelong friends and memories.

We encourage you to share your story. You don’t have to be a writer. Just give us your story and we can help you write it and have it published in the National Kart News and Go Racing magazines.

We look forward to your becoming a part of the Rotax family. For more information, you can visit our website at www.rotaxmaxchallenge.com, call us at 760-864-1320 ext. 200 or visit your local Rotax dealer.
